CIRCUIT OF MOUNT RINJANI VOLCANO

Tour Duration: 11 hours

Depart your accommodation: 8.00am

Return to your accommodation: 7.00pm

The itinerary for this tour is assuming your accommodation is in the Senggigi area, but you can of course modify any of our tours to suit what you want to see, stopping when and where you like!

- **Total distance travelled is approximately 250 km**
- **Travel north along the coast road from Senggigi, which offers stunning views across the sea from cliff-top vantage points to the distant figure of Mount Agung volcano on the island of Bali, and also of the Gili Islands which sit just off the coast of Lombok**
- **Visit a traditional village where the Sasak people live the same way they have since time immemorial**
- **Stop at one of the stunning waterfalls in the Senaru district, which are fed by water cascading down the northern slopes of Mount Rinjani**
- **(Take lunch at a location of your choosing – *(your guide will offer suggestions for the best place)*)**
- **Follow the winding road up out of the agricultural valley, climbing steeply higher and higher until you reach the pass which leads down into lush rain-forest in the valley below. This point is marked by a parking bay... perhaps stop for coffee here to admire the views, and feed the local monkeys if they are present. At this point you are sitting on the northern shoulder of Mount Rinjani volcano. On clear days the views are just amazing. Mount Rinjani is so large it creates its own weather patterns, so often at this point the weather is quite cool, and you can be surrounded in cloud! Surprising for the tropics!**
- **Wind down into the lush valley, where rice paddy terraces perch in a precarious manner on the steep hillsides.**
- **Travel through local villages, gradually turning west through rich farming areas.**
- **Return to your accommodation in Senggigi, arriving around sunset.**
